

No	TestCase name	Pre-condition	Test data
1	Verify that user can choose 3 different colors	1. Launch the app	user
2	Verify that user can not choose less than 3 different colors	1. Launch the app	user
3	Verify that user can not choose more than 3 different colors	1. Launch the app	user

## Review Points

- 1 Not all colors are specified
- 2 Test cases are not well described:
  - 2.1. Case 2: Missing action step to verify that user actually can't proceed just with 2 colors
  - 2.2. Case 3. It is not specified how the captcha should behave when user makes 4 click. Last picked color change or first picked. We discussed that

Steps	Expected result
1. Choose 3 different colors (light red, regular red, light yellow)	User can choose 3 different colors
1. Choose 2 different colors (light red, regular red, light)	User can not choose less than 3 different colors
1. Try to choose 4 different colors (light red, regular red, light, light brown)	User can not choose more than 3 different colors
